

Oregonfast.net: Local service & high-speed affordability

Siuslaw News: What are the major services you offer customers?

Tiffany Rogato: We do technical support, build new computers and repair customer computers. We are also happy to special order parts.

What retail products does Oregonfast.net offer, other than Internet service?

We offer all peripherals.
In addition:
New Complete Computer Systems
New custom-built desktops computers
"We build the best computers, using only quality parts."
New Laptops.
Brands we carry: HP, Toshiba and Sony
HP All-In-One Printers
Hp Ink

Computer Parts:

LCD Monitors (starting @ \$175 for a 17")
Replacement Memory
Modems
Fans
Power Supplies
Mice
Keyboards
Motherboards
Hard Drives
Cases
DVD RW
Video Cards
Sound Cards
Cables

Networking Equipment:

Routers
Switches
Cat5 cables

What's most important is our "know how".

What special orders have customers made in the past? What kinds of special orders do you usually do?

A special order would come from an average computer user who needs, for example, extra memory, sound or video graphics.

When you're choosing a new computer, what should you look for?

First, consider your needs and talk to knowledgeable people.
Second, price is important but quality is also
Finally, you want to be sure you have support if you have a problem.
Our computers are backed with a one year warrantee.
You call OregonFAST.net for help and not a call center based somewhere else in the world.

How can a customer fit their needs to the machine they want to get? How can shopping at a local place like Oregonfast.net help instead of at the bigger guys?

Having local support is a real plus!

Anything else you'd like to add?

They said Oregonfast.net provides a lot of behind the scenes community service, including streaming access to public local government meetings offered free online, in conjunction with Channel 10 and Campbell Productions. They also provide cameras and surveillance for the Florence Police Department at Miller Park.

We live here, work here and serve our community with genuine loyalty, care and respect.

Did you know?

Now Oregonfast.net offers at least than 150 Wifi access points within the city of Florence – plus as far north as the Sea Lion Caves and as far south as Booth Island, Siltcoos Lake, where there are no telephones lines and residents run their homes on solar-powered generators. That allows residents to access the Internet on devices such as Blackberry cell phones or PDAs.
“On Wi-fi, or wireless fidelity, you are running on radio frequencies so you don’t need wires in the ground,” said Tiffany Rogato. “Places so remote that you wouldn’t expect to get broadband can actually get service through Wi-fi.”
